## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment received on 6/08/2005 has been received and entered in the case. In view of Applicant's amendments, the previous prior art rejections mailed on 3/11/2005 have been withdrawn. Therefore, now the case is found to be in allowance condition.

## **REASON FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or fairly suggest an integrated circuit having specific structural limitations such as a logic circuit (1 in instant Fig. 5) developing first and second input signals (IT, IB) complementary to each other, wherein the logic circuit includes a first pull-up N-channel MISFET (11) used for pull-up of the first input signal, and a second pull-up N-channel MISFET (13) used for pull-up of the second input signal; and a differential output circuit including a first input (21) receiving the first input signal; a second input (22) receiving the second input signal; and being configured in combination with the rest of the limitations of the base claims and any intervening claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
